Chip,

I exchanged emails with Patty Dost this afternoon regarding your concerns about the request in the LWG later for EPA to confirm that the work will meet our obligations under the Order and be consistent with the NCP. Patty said that a response from EPA that says something like "EPA is requiring the LWG to evaluate these RALs, alternatives and other FS Key Elements under the AOC, and EPA therefore considers their inclusion in the draft FS consistent with the NCP," would be OK.

Thanks,

Jim McKenna
